

THE SCARY HOUSE

I have always wondered what happened at my neighbor's house. I live in a very quiet neighborhood, but suddenly our neighbor Berta disappeared.

From that day, the house became abandoned and now nobody lives there.

But one night I couldn't sleep, so I looked out of the window and I saw a light in the window of the house.

Since that moment, every night I watch that house from my window.

I think the other night they caught me looking, I don't know who or what, but while I was looking, two eyes that weren't human looked at me from one of the windows and suddenly a horrible scream was heard in all the neighborhood.

The next morning everyone was talking about that strange sound. Someone said that they were birds and others thought that it was a dog, but I know the truth, someone lives in that scary house and at night they come out to watch us, waiting for something. I'm scared, but I haven't told this to anyone.

After a week, I was so scared that I didn't look out of the window again. I had to explain it to someone and finally I trusted my friend Sam.

Sam is a boy of my class, he is brave and he told me that if everything I have told him was true, the only solution was to enter to the house at night.

One night we took a torch from my house and we prepared to enter. I couldn't move from my place because I was so scared. The front door was closed but one of the windows was opened.

The house was in a good condition. The furniture was covered with sheets, it was clear that nobody lived there.

We were leaving the house when suddenly we heard some steps on the top floor and we got scared. It seemed like if there were some people running from one side to another and the laughter was scary.

Sam looked at me scared, he knew that the house was abandoned and nobody could live there. We left the house quickly and when we went outside Sam told to me that it was better if we didn't enter in this house again, strange things happened and it was better to stop.

From that day I have never wanted to investigate anything else about the house. But some nights something or someone wakes me up and I feel watched.
